

Action Lines

continued from page 8

are handled by the Consolidated Personal Property Office at the Naval Weapons Station in Goose Creek. This office has jurisdiction (authority to correct) over quality control matters. Your complaints have been filed through the appropriate channels.

Charleston TMO will continue to ensure the highest standard of quality control during PCS moves. Please feel free to contact our TMO or the Consolidated Personal Property Office if there are any questions or concerns left unanswered.

Green sticker

I would like to call to your attention the number of people coming into Charleston AFB with the green civilian stickers for employed civilians. These people are not employed on any military installation, and when checking ID cards, the security guard allows them to enter with a driver's license. This is one of the few benefits left for the retired population, and this should be stopped.

While we appreciate the call, we're confused about the specific complaint and are unable to obtain further data because this was an anonymous input. For everyone's information, in order to register a vehicle on Charleston AFB, the vehicle owner must present some sort of bonafide ID (AF Fm 354, DeCa credential, NAF ID, or contractor

pass). The green stickers are issued to civilians who are employed by the Air Force. When the gate guards conduct 100 percent ID checks, they also check for the proper ID, not a driver's license.

Extended hours?

Would it be possible for the Health and Wellness Center to look at extending the hours of operation? They are currently open from 7:30 a.m. to 5:30 p.m. for personnel on the self paced and monitored programs to utilize. This is great; however, it makes it difficult to get in a quality workout except during duty hours. I personally work from 7 a.m. to 4:30 p.m. but work late most days and have to stop to get my time in at the HAWC.

If the HAWC was open from 6 or 6:30 a.m. to 5:30 p.m., it would enable someone to get a workout without having to take time away from their jobs. Even with the support of management and supervisors in allowing us the time to make the mandatory/voluntary three times a week, it is difficult at best to fit everything in. With manpower shrinking and workloads increasing, it is more and more necessary to use every minute of your day to get the job completed.

Could this be implemented for a trial period to see if the demand is there and supported?

Thank you for your question about extending the hours of operation for the HAWC in order to better accommodate personnel on the Monitored and Self-Directed Fitness Improvement Programs.

While the goal of both programs is to improve the fitness level of our Air Force personnel through regular exercise, individuals on Monitored Fitness Improvement Program (MFIP) are the only ones who are required to exercise in the HAWC from 7:30 a.m. to 5:30 p.m. The Self-Directed Fitness Improvement (SFIP) allows personnel to exercise when and where they like as long as they meet their minimum requirement of three times per week.

Your question is very timely because the HAWC and Fitness Center staffs have been discussing this issue for several weeks now and have come up with a great Team Charleston solution. To better serve the Charleston AFB community, beginning Monday, April 3, individuals on the Monitored Fitness Improvement Program will be allowed to utilize the Base Fitness Center for exercising and will no longer be restricted to exercising at the HAWC. Individuals on the MFIP will carry and maintain their own MFIP cards, and after exercising, will be able to have their MFIP cards documented by either HAWC or Fitness Center personnel.

This will significantly extend the hours during which an individual on the MFIP can exercise, since the Fitness Center hours of operation are Monday through Friday from 5 a.m. to 11 p.m.; Saturday and Sunday from 7 a.m. to 6 p.m.; and holidays from noon to 6 p.m.

If you have any questions or comments, please feel free to contact the Health and Wellness Center at 963-4007.
