

AF announces CCS list

The Air Force has announced its latest Chronic Critical Shortage skills list, giving enlisted members in selected fields a promotion advantage.

The CCS is designed to help reduce staff, technical and master sergeant shortages in certain sortie-generating and readiness-related skills by giving airmen eligible for promotion to these NCO grades a promotion advantage.

Specifically, personnel in CCS skills are promoted at 1.2 times the Air Force average. For example, if the Air Force average for a particular promotion cycle is 15 percent, then CCS skills are promoted at an 18 percent rate.

An Air Force specialty code is considered for placement on the CCS skills list when its NCO manning is below — and projected to remain below — 90 percent. Once on the CCS skills list, an AFSC usually remains on the list for a minimum of two years or until NCO manning is above 95 percent.

The current CCS list will be in effect for the calendar year 2000 staff, technical, and master sergeant promotion cycles and consists of the following 19 specialties:

- 1A3X1 — Airborne Communications Systems
 - 1A4X1X — Airborne Battle Management Systems/Weapons Directors *
 - 1C1X1 — Air Traffic Control
 - 1C2X1 — Combat Control
 - 1C3X1 — Command Post
 - 1C4X1 — Tactical Air Command and Control
 - 1C6X1 — Space Systems Operations
